

## **1978 ANNUAL REPORT**

**Somerville Belkin Industries Limited**

**Somerville Belkin Industries Limited**, with its head office located in Mississauga, Ontario, operates ten plants — in Montreal, Brockville, Toronto, Bramalea, London, Windsor, Winnipeg and Richmond.

The Company produces folding cartons, flexible packaging, games and puzzles, vacuum formed, compression and injection moulded plastics, automotive products, and provides merchandising services.

## Report to Shareholders

Morris Belkin

Robert F. Krause

The sales of Somerville Belkin Industries Limited for the fiscal year ended September 30, 1978, amounted to \$94,631,000 compared to \$55,103,000 in the previous period. The latter figure is not comparable, however, as the 1977 fiscal year covered a period of only nine months as the Company's year end was changed from December 31 to September 30, effective September 30, 1977, in order to conform with the year end of its parent company. By way of comparison, sales for the twelve months ended September 30, 1977, amounted to \$72,929,000 hence the current period's performance represents an increase of 29.7%.

Packaging sales for the twelve months to September 1978 amounted to \$75,706,000 compared to \$56,323,000 achieved for the comparative period of 1977 and \$42,823,000 for the short 1977 fiscal year. Sales for 1978 include the results for the full year of the Richmond, B.C., Folding Carton Plant which was acquired from Belkin Packaging Ltd., on June 30, 1977. Other segments of the Company

showed sales of \$18,925,000 for the twelve months which represents an increase of \$2,319,000 or 13.9% from the comparable period of 1977 and compares with \$12,280,000 for the nine months to September 1977. The sales improvement in the current year is mainly attributable to the strong performance in the Automotive Products Divisions.

Net Income for the twelve months to September 1978 amounted to \$2,158,000 compared to an unaudited \$2,332,000 for the comparable period of 1977 and \$1,838,000 for the nine months to September 1977. The Packaging Divisions performed well at all Divisions with the exception of the new Brockville plant which is designed to produce high quality gravure printed tobacco packaging and which entered commercial production early in the fiscal year. Various production problems and inefficiencies while training employees in this new process contributed to an unsatisfactory performance.

The Automotive Products Divisions produced record sales and profits during the year despite the effects of a 13 week strike at the Windsor plant. The Plastics Division also produced improved results over 1977, while Merchandising Services turned in a satisfactory performance. In the Games Division the long standing association with Milton Bradley will be terminated effective December 31, 1978. This will not have a material impact on the overall Company's profits. It is the intention of Somerville Belkin Industries Limited to continue in the games business in 1979 with jigsaw puzzles and other games and to actively seek new licensing agreements with foreign suppliers and allied products. In general, the 1978 performance of the Games Division represented an improvement over the previous year.

The Company's equity earnings in Mastico Industries Limited in which it holds a 50% interest, were lower than for the previous twelve month period due to a shortfall in sales and lower selling prices. With decreased car sales being called for in 1979 the Company is not optimistic that it can improve its performance.

It is a pleasure to thank all those employees who have contributed to the performance of the Company in the past year and we count upon their continuing support toward a successful year. During the year Robert F. Krause joined the Company as President and Chief Executive Officer and was also elected to the Board of Directors. In August of 1978 the Company relocated its Head Office from London, Ontario, to Mississauga, Ontario.

With continued strong demand for all the Company's products, we are looking for improved results in fiscal 1979.

# Notes to Consolidated Financial Statements

Somerville Belkin Industries Limited  
September 30, 1978

## 1. Summary of Significant Accounting Policies

### (a) Basis of consolidation

The consolidated financial statements include the accounts of Canadian Folding Cartons Limited and Somerville Automotive Trim Limited. These wholly owned subsidiaries are inactive.

### (b) Inventories

Inventories are valued using the first in first out method. Raw materials and supplies are valued at the lower of cost and net realizable value. Work in process and finished goods are valued at the lower of cost, which includes an allocation of factory overhead, and net realizable value.

### (c) Fixed assets and depreciation

Buildings and equipment are stated at cost except for buildings owned in 1951 and equipment owned in 1955, which are stated at depreciated replacement values in accordance with appraisals made in those years. Other fixed assets and additions subsequent to the appraisals have been shown at cost, which includes, since 1976, interest paid on funds borrowed for major equipment additions. Depreciation is provided on a straight-line basis over the estimated useful lives of the fixed assets.

### (d) Debt financing costs

Debt financing costs related to the 8 1/2% Series A sinking fund debentures are being amortized over the twenty year term of the issue on a straight-line basis.

### (e) Preproduction costs

The Company follows the practice of deferring costs associated with major plant expansions and amortizes these costs over the five year period immediately following the commencement of commercial production.

## 2. Inventories

	1978	1977
Raw materials and supplies	\$ 6,533,803	\$ 5,656,161

# Auditors' Report

To the Shareholders of  
Somerville Belkin Industries Limited

We have examined the consolidated balance sheet of Somerville Belkin Industries Limited as at September 30, 1978 and the consolidated statements of income, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the company as at September 30, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

## **1979 ANNUAL REPORT**

*Unread*  
Somerville Belkin Industries Limited

**Somerville Belkin Industries Limited**, with its head office located in Mississauga, Ontario, operates eleven plants — in Montreal, Brockville, Toronto, Bramalea, London, Windsor, Winnipeg, Richmond, and Burnaby.

The Company produces folding cartons, flexible packaging, vacuum formed, compression and injection moulded plastics, automotive products, and provides merchandising services.

## Report to Shareholders

Morris Belkin

Robert F. Krause

The sales of Somerville Belkin Industries Limited for the fiscal year ending September 30, 1979 amounted to \$112,399,000 compared to \$94,631,000 in the period ending September 30, 1978. The two figures are not comparable inasmuch as the fiscal 1979 figures include the five month results of National Paper Box.

Earnings declined to \$1,725,000 from the 1978 fiscal earnings of \$2,158,000 primarily due to a five and one half month labour strike at two of the eastern packaging plants. This, coupled with high interest rates and intense competitive pressures further depressed earnings. Operating cash flow for the period was \$4,121,000 as compared to \$4,636,000 in fiscal 1978.

Packaging sales for the twelve months to September, 1979 were \$92,484,000 compared to \$75,706,000 achieved in the comparable period of 1978. Other divisions of the company achieved sales of \$19,915,000 which compares with \$18,924,000 in the previous period. The sales increase was attributable to a strong first half

performance of the Automotive Products Division, although demand for reinforced plastic panels and automotive parts weakened in the last half of the year.

Merchandising Services, Plastics Division, Games Division and the Automotive Products Divisions all had profit improvements over fiscal 1978.

The Brockville, Ontario packaging plant which was established in 1977, experienced a significant improvement in profitability as did the Winnipeg and Richmond, B.C. plants. The five months' earnings contributions of National Paper Box were substantial.

The Montreal packaging plant, one of our largest facilities, and the printing department of the London packaging plant, were both shut down as a result of a labour strike by the Graphic Arts International Union. On May 4, 1979 this union entered a strike with Somerville Belkin's two plants as well as with three other folding carton manufacturers in Eastern Canada that

was not settled until October, 1979. There was a significant impact on the earnings of the eastern plants as a result.

The company's equity earnings in Mastico Industries Limited, in which it holds a 50% interest, were \$307,000 compared to \$297,000 in 1978. With decreased car sales anticipated in 1980 the company is making a concentrated effort to expand into non-automotive markets.

On April 30, 1979 Somerville Belkin acquired the Burnaby, B.C. folding carton division of MacMillan Bloedel. This division, now operating as National Paper Box, services the western Canadian folding carton, Pure-Pak and set-up box markets. The company has also announced its intention to build a milk carton packaging plant in Edmonton, Alberta which should be in production in early 1980.

At the Toronto packaging plant a new 6 Colour Offset press as well as a companion cutting press were recently installed. This equipment is the latest and fastest available.

In September, 1979 the Games Division was sold to Copp Clark Limited of Toronto. We are retaining a contract to manufacture games and puzzles for Copp Clark Limited in the London plant for at least three years.

We wish to express our appreciation for the continuing support of all our employees this past year.

While net earnings for the last year were disappointing, we are looking forward to next year with cautious optimism.

M. Belkin,  
Chairman of the Board

Robert F. Krause,  
President and Chief Executive Officer

# Notes to Consolidated Financial Statements

Somerville Belkin Industries Limited  
September 30, 1979

## 1. Summary of Significant Accounting Policies

### (a) Basis of consolidation

The consolidated financial statements include the accounts of Canadian Folding Cartons Limited and Somerville Automotive Trim Limited. These wholly owned subsidiaries are inactive.

### (b) Inventories

Inventories are valued using the first in first out method. Raw materials and supplies are valued at the lower of cost and net realizable value. Work in process and finished goods are valued at the lower of cost, which includes an allocation of factory overhead, and net realizable value.

### (c) Fixed assets and depreciation

Buildings and equipment are stated at cost except for buildings owned in 1951 and equipment owned in 1955, which are stated at depreciated replacement values in accordance with appraisals made in those years. Other fixed assets and additions subsequent to the appraisals have been shown at cost, which includes, since 1976, interest paid on funds borrowed for major equipment additions. Depreciation is provided on a straight-line basis over the estimated useful lives of the fixed assets.

### (d) Debt financing costs

Debt financing costs related to the 8 1/2% Series A sinking fund debentures are being amortized over the twenty year term of the issue on a straight-line basis.

### (e) Reproduction costs

The Company follows the practice of deferring costs associated with major plant expansions and amortizes these costs over the five year period immediately following the commencement of commercial production.

## 2. Purchase of National Paper Box Division, Burnaby, B.C.

Effective April 30, 1979 the Company purchased a folding carton plant in Burnaby, B.C. The transaction has been accounted for on the purchase method with the results of operations included in these financial statements from date of acquisition. Details of the acquisition are as follows:
